Index 1976

Subject

Academic–industrial cooperation, 251
Academic standards, 151
Addison, Professor C. C., 156
Aerosols, 2
Air, contamination, 185
Alchemy, 180
Alternative technology, 9
American Chemical Society, –Chemical Society Agreement, 4
Analysis, air, 185
Analytical chemistry, 6, 24, 387
  professorships, 131, 204, 362
Anti-Stokes Raman spectroscopy, 165
Art, laboratories, 180
  pigments for, 182
Australia, education, 6
  resources, 8

Bergman, Ernst David, obituary, 132
Biochemistry, metals in, 119
Bonds, homolyses, 196
Book Reviews, adamantane, 393
  adlehydes, 134
  alicyclics, 358
  aliphatics, 266
  alkaloids, 101
  analysis, 297, 325, 391
  applied chemistry, 202
  aromatic chemistry, 66, 393
  Asimov on chemistry, 200
  atmospheric chemistry, 24
  atomic absorption spectroscopy, 66, 199
  azo groups, 200
  biopolymers, 265
  biosynthesis, 359
  ^{13}C-nmr, 23
  chemical kinetics, 135
  Chinese science, 358
  chromatography, 23, 103, 391
  colloids, 296
  colloid and surface science, 134
  computers, 167, 265, 358
  crystallography, 202, 325
    organo-sulphur, 264
    orientation and stereoselection, 133
  Eda complexes, 229, 393
  education, 230
  electrolyte solutions, 266
  electro-organic synthesis, 66
  electrophoresis, 199
  energy, 296
  equilibria, 325
  esr, 394
  etymology, 358
  flavonoids, 64
  fluorescence spectroscopy, 66
  Fourier transform, 104
  free radicals, 64, 297
  heavy metals, 324, 394
  heterocyclics, 64, 104, 134, 264, 296
  HMO-model, 359
  industry, 360
  information systems, 167
  inorganic, 296
  inorganic pigments, 101
  IUPAC, 231
  lasers, 199
  liquids, 200
  macromolecular science, 325
  magnetic resonance, 229
  mass spectrometry, 265, 296
  mathematics, 103
  metal carbonyls, 231
  metal compounds, 101
  molecular association, 66
  molecular processes, 167
  molecular rotation spectra, 326
  molecular spectroscopy, 24
  molecular statistics, 264
  molecular structure, 200
  Mössbauer spectroscopy, 391
  Mulliken, Robert S., 228
  Newton's alchemy, 229
  nmr, 199
  nuclear quadrupole resonance, 133
  oceanography, 103, 202
  optical methods of analysis, 25
  organic compounds characterisation, 359
  organic equilibria, 24
  organic halogens, 360
  organic synthesis, 229
  organoboranes, 166
  organochromium chemistry, 166
  organometallics, 23, 133, 265
  organonickel chemistry, 167
  organophosphorus, 64, 134
  photochemistry, 103, 168, 325
  physical chemistry, 25
  physical organic chemistry, 359
  pollution, 168
  polymers, 202, 230, 297
  principles, 64
  quantum theory, 64
  radiochemistry, 25
  rare earths, 391
  rare gas solids, 361
  reaction kinetics, 23
  reaction pathways, 359
  scandium, 264
  Science and the media, 391
  scientific information, 67
  selenium, 228
  solids, 166
  spectroscopy, 24, 166, 264, 393
  statistical mechanics, 265
  stereochemistry, 66
  steroids, 358
  sulphur, 67
  terpenoids and steroids, 202
  textile fibres, 103
  theoretical chemistry, 229
  thermal analysis, 166
  thermochemistry, 266
  thermometric titration, 297
  thiocyanates, 324
  trace element analysis, 199
  wave functions, 167, 393
  x-ray analysis, 133

Cadmium, contamination, 26
Carcinogens, 138
Chemical reactions, eda complexes in, 21
  symmetry rules, 160
Chemical Society–American Chemical Society agreement, 4
Chromic acid, safety, 169
Chromium (II) , safety, 204
Coatings, 54
Computers, 340
  mass spectrometry, 341
Computer assisted learning, 348
Confederation of British Industries, 3
Construction industry, chemistry and, 317
Contract research, 248
Cook, Sir James, obituary, 60
Copolymers, butadiene-acrylonitrile, 48
  ethylene–vinyl acetate, 48
  styrene–butadiene, 50
  styrene–methyl methacrylate, 49
Crop protection, 221

Desalination, 276

Ecology, 221
Eda complexes, 18
Education, 15
  BSc, 258
  computer assisted learning, 348
  HNC, HND, 255
EEC, water treatment, 293
Electrically conducting complexes, 22
Electrochemistry, water purification, 291
Electron capture, 194
Electron loss, 196
Electron solvation, 193
Electron spin resonance, radiation chemistry and, 193
Electron tunnel effect, 92
Ellingham, Thomas, obituary, 322
Energy, chemistry and, 223
Enzymes, 115, 124
Exiplexes, 21

Fibres, 53
Furoyl chloride, 26

Grignard reaction, 191

Hill, Dr Henry H., 2
Hirst, Sir Edmund Langley, obituary, 321
History, 180

ICSU–AB, 59
Industry, 146
–academic cooperation, 251
results, 244
Ion exchange, water purification, 285

Johnson, Samuel, 130

Lasers, 3
Lead, contamination, 26
Lewin, Sherira, obituary, 132
Ligand migration reaction, 162
Lipscomb, W. N., 374

Magnetic field effects, 214
Major hazards, 374
Mass spectrometry, computerised, 341
Materials science, 321
Metabolic fates, radioisotopes and, 379
Metals, air pollution by, 190
in biochemistry, 119
Methylfluorosulphate safety, 362
Molecular geometry, 84
Mulliken, R. S., interview, 96

Naphthylamines, carcinogens, 138
Nitrogen oxides, determination in air, 188
Nomenclature, 154, 262
Nuclear magnetic resonance, 88
^{13}C, polymers, 45
proton, polymers, 47
Nuclear Overhauser effect, 48
Nuffield Foundation, 26

Obituary, Bergmann, Ernst David, 132
Cook, Sir James, 60
Ellingham, Thomas, 322
Hirst, Sir Edmund Langley, 321
Lewin, Sherira, 132
Polanyi, Michael, 323
Roberts, John Cyril, 61
Rudinger, Josef, 226
Watson, Herbert Ben, 227
Organisation for Economic Cooperation and Development, 2
Organometallic reactions, 161
Ozone, determination in air, 188

Perchlorates, safety, 205
Peroxyacetyl nitrate, determination in air, 189
Pest protection, 313
Pesticides, 310
Phosphine, 105
Phosphorus halides, 105
Pigments, in art, 182
Plastics, 53
Polanyi, Michael, obituary, 323
Pollution, 309
air, 185
Polymers, 53, 384
^{13}C-nmr, 45
Polynuclear aromatic hydrocarbons, 138
Programming languages, 352
Publicity, 57

Rabies, 328
Radiation chemistry, labelling, 375, 379
mechanisms, 193
Recycling, 147
Remote sensing, air pollutants, 189
Remuneration, 114, 178
Reverse osmosis, water purification, 281
Roberts, John Cyril, obituary, 61
Rubbers, 53
Rudinger, Josef, obituary, 226

SACRHEI, 3
Safety, 44, 218
chromic acid, 169
chromium(II), 204
conc. H_2SO_4, 138, 233, 299
furoyl chloride, 26
methylfluorosulphate, 362
oil soaked lagging, 69, 204
perchlorates, 205
phosphine, 105
phosphorus halides, 105
radioactivity, 378
Science Research Council, 82, 374
Sewage, 288
Single cell protein, 212
Social significance of chemistry, 148
Sulphur dioxide, determination in air, 187
Sulphuric acid, safety, 138, 233, 299
Symmetry rules, chemical reactions, 160
Synopsis Journal, 95

Thompson, C. N., 157
Toxicity, 99
Toxicology, 221

Universities, education, 245
University of Queensland, 6

Water, 278
distribution, 290
radiolabelling, 375
Watson, Herbert Ben, obituary, 227
